**Categories:** Blue Category

Rosemont Copper in Tucson, AZ, is awaiting final permitting so they can begin construction of a new copper mine. This mine will bring needed jobs and economic activity to the region.

The project has been vetted by the Arizona Department of Environmental Quality and numerous federal agencies over the past six years. There is no valid reason to further delay the project.

Please give your necessary approvals so we can get on with the project and inject its economic benefit into the community.

Jonathan DuHamel

Tucson, Arizona
